

We Salute our Veterans and Spouses by providing Home care at **Zero** cost to the Veteran

99.5% approval rate! Compared to less than 50% going directly to the VA.

We get approvals faster

Most veterans are not aware of the eldercare benefits available through veterans health care. One particular VA program is called Veterans Pension or more commonly known as "Veterans Aid and Attendance Benefit".

Veterans Aid and Attendance Benefit can provide 15 to 30 hours a week of personal care services for veterans and their surviving spouses.

Pension is for any veteran, age 65 and older who served during a period of war. The Veteran must have an honorable discharge, meet income requirements, and need assistance with daily living on a regular basis to stay independent in their chosen place of residence. A lesser Pension benefit is also available to the single surviving spouse of a veteran who served during a period of war.

Veteran Benefit Services

What We do:

Care Consultation - We help families by taking time to understand their loved one's needs and then customize a care solution for their budget and care requirements. Each family and situation is unique and we understand that home care services may not be the best option for certain situations. We take an objective view of each situation and consult the family on all possible care options that would meet their needs. Options include assisted living facilities, board and care homes, skilled nursing care, etc. Call us today to schedule your free in-home care assessment or just talk to one of our certified eldercare advisors. Ask us about care funding options!

Our Service Area - Serving all of Volusia County.

Our Caregivers - are totally committed, highly qualified, and carefully selected individuals who are thoroughly screened, background checked, bonded, and insured. Our typical caregiver profile is either a Certified Nurse Assistant (C.N.A) or Certified Home Health Aide (C.H.H.A) with five years work experience as a caregiver.

Veterans and their Surviving Spouses - can receive up to 25 hours of free care per week paid for via a little understood VA Aid & Attendance Pension Benefit. Our team of accredited VA agents can assist you in applying for this benefit and successfully getting approved. This benefit can provide funds for care for the rest of your life. What is Home Care?

The aim of home care is to allow seniors to remain at home longer rather than enter an assisted living community, nursing home or other type of senior care. Home care may be appropriate if a senior prefers to stay at home but needs assistance with activities of daily living.

Activities of daily living include bathing, dressing, and meal preparation but may also extend to assistance with transportation, paying bills, making appointments, and simply being there to provide companionship and emotional support. Home care services are available 24 hours a day, seven days a week and can be paid for directly by the client or through a variety of public and private funding sources such as Long Term Care Insurance, Workers Compensation, and Medicaid.

Need Homecare? We can provide quality and affordable care in the comfort of your own home. Our personal care attendants are English speaking, reliable, fully screened, bonded, employees of our agency with both liability and workers compensation insurance coverage. Contact us to discuss our variety of homecare options for every need and budget. There's no place like home!
